CBW Intelligence Problems:

- Status is unchanged since the last report. The discussion paper drafted by CIPC staff, revised slightly in response to informal comments from substantive experts in this field, is ready for distribution to CIPC principals preliminary to forming the working group. Terms of reference to guide this project, also revised to accommodate expert comment, is undergoing internal CIPC staff review. The target remains having CIPC principals address the subject in the CIPC January meeting.

Use of Classified Foreign Intelligence to Support Drug Enforcement:

- [] has completed a draft of the Panel report on the use of classified foreign intelligence to support the drug enforcement agencies. [] [] are now working together to meld this draft with previous work done by the Panel.

Methodology and Procedures for Evaluating Collection Mixes:

- Effort has begun on developing the methodology needed to accomplish this task, as described in the memorandum of 8 December from the C/CIPC to the DCI.

WSSIC's Mobile Missile Working Group:

- [] attended the meeting of WSSIC's Mobile Missile Working Group which was held on 4 January. This was the group's first meeting since 14 December.
